Actual clinical tests of 100 acne patients, with a new twin-action method and formula—show that the acne or pimples were decidedly improved or completely arrested in every single case tested!

Recently, a leading medical journal published the results of exhaustive tests on the treatment of acne. 100 young men and women patients—suffering from acne condition of their skin—were carefully selected from four leading hospitals and clinics. All the patients were questioned and advised on personal hygiene, dietary, cosmetic and postural habits, and other aggravating factors.
